

Housekeeping Tips

How to Make a Hotel Bed Faster

Tip #1: Opt for Flat Sheets

Fitted sheets are time consuming to fold and require a housekeeper to visit all four corners of the bed to install.

Instead, opt for dual flat sheets to maximize efficiency and minimize linen inventory types.

Tip #2: Ditch the Duvet

Duvet covers take three to four times longer to change than utilizing a triple sheeting technique.

Plus, top covers are easily laundered for a more sanitary room. Ditch the duvet and make the switch to triple sheeting today!

Tip #3: Use a Zip-Top Mattress Protector

Our AllerEase® Professional products offer maximum protection from allergens and bed bugs while being incredibly easy to change, thanks to the 360° zip-off top.

Never suffer the cost and labor of cleaning/ replacing a soiled mattress again!

Tip #4: Maintain Par Levels

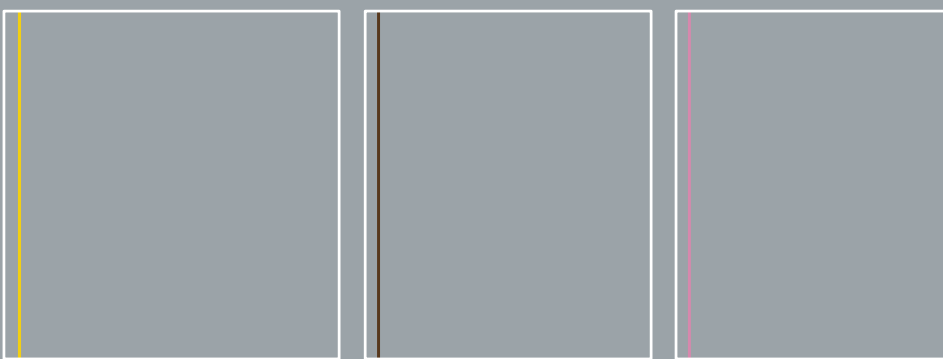

Nothing slows down a housekeeper more than having to wait for clean linens.

Keeping the proper stock of product ensures maximum efficiency and lengthens the life of your linens by allowing ample rest between uses.

Tip #5: Take Advantage of OneSTEP™

EZ ID® sheeting

Never mistake a queen for a king again!

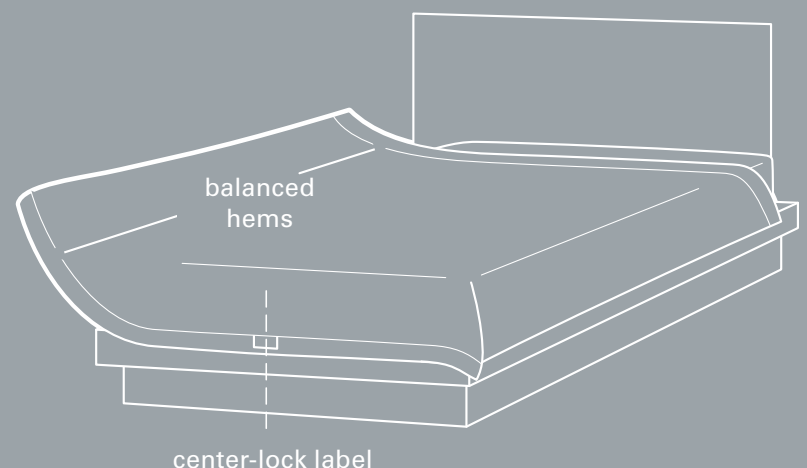

OneSTEP™ stands for “One Solution to Enhance Productivity” and our products do just that!

Each solution offers a unique way to shorten processing and room make-up time.

Balanced Hems

Top or bottom? It doesn't matter anymore thanks to balanced hems!

Center-Lock Labels

Finding the middle of a sheet has never been easier!

Room Ready For You® Laundered with Tide®

Clean, fresh and bed-ready right out of the box!
